

FUTURE LIFE INSTITUTE

Experiment for Establishing Scientific Proof of Reincarnation

Proving Reincarnation by 2050

Introduction

- **This presentation describes a new kind of experiment for scientifically proving reincarnation**
- **Sponsored by Future Life Institute**
 - **Dedicated to bold new initiatives in scientific research to provide humanity with greater understanding of reincarnation and future lives**

Goals

The experiment has wide-ranging implications and ramifications introduced in the next 4 slides:

- **Experiment's mission**
- **Advancing Hinduism**
- **India global leadership**
- **Protecting spiritual capital**

Experiment's Mission

- 1. Establish unequivocal scientific proof of reincarnation**
- 2. Worldwide front page headlines**
- 3. Change beliefs of billions of people**
- 4. Generate global demand for spiritual guidance and education**

Advancing Hinduism

Experiment advances Hinduism on the global stage:

- **Secure an uncontested worldwide leadership position in ideology**
- **Accelerate the global expansion of Hindu philosophy**
- **Raise worldwide interest in Hinduism**
- **Intensify the popularity of Hindu teachers and ideas in the West**
- **Legitimize Hinduism's traditions, reinforcing their relevance in today's world**
- **Raise global respect and honor for India as the worldwide mother of wisdom**

India Global Leadership

Experiment boosts India's global leadership position:

- Lead the way to a golden age of wisdom for humanity
- Raise Hinduism's appeal to young, sophisticated, cosmopolitan demographics in all developed countries
- Keep up with the accelerating pace of advances in technology and physical sciences
 - Narrow the gap between physical and spiritual science
 - Prevent misuse of technology

Protecting India's Spiritual Capital

Experiment helps to protect India's spiritual capital

- Re-engage India's younger generations into spirituality
 - Draw them back to the treasures of their spiritual heritage
- Counterbalance the shift in India towards materialism which is accompanying prosperity
 - Prevent a damaging erosion of India's spiritual capital
- Protect India's most precious resource – the wisdom of her people

Experiment

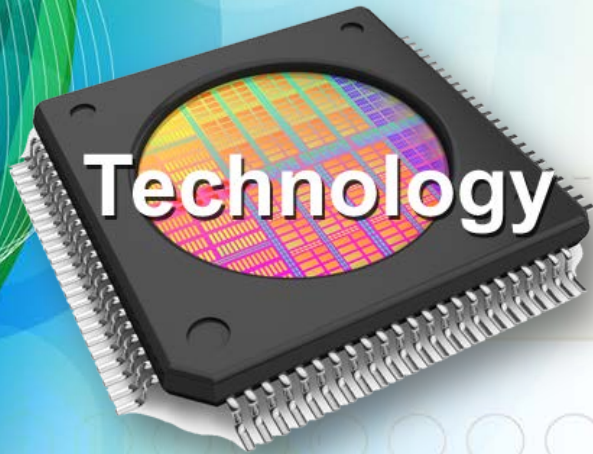

Experiment

The experiment has 6 parts:

- 1. Technology**
- 2. System**
- 3. Users**
- 4. Evidence**
- 5. Theory**
- 6. Proof**

1. Technology

- A new technology is dawning which enables the scientific proof of reincarnation for the first time in history.
- The name of the technology is *cognitive computing*.

IBM's Watson is the first commercially-available cognitive computing system.

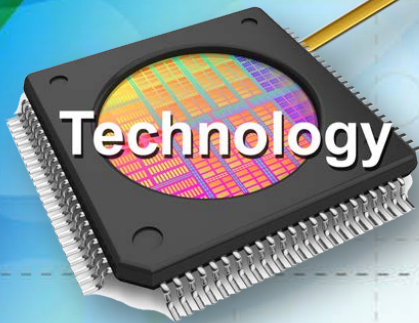

IBM Watson
Computer System

2. System

- Cognitive computing technology enables the design of an effective *trans-life memory system*.
- This system allows individuals to store memories in one life and retrieve them in the next one.

3. Users

- Users upload key memories from their present lives into the system.
- Users set firm intentions to retrieve their stored memories in their next life and to remember details.

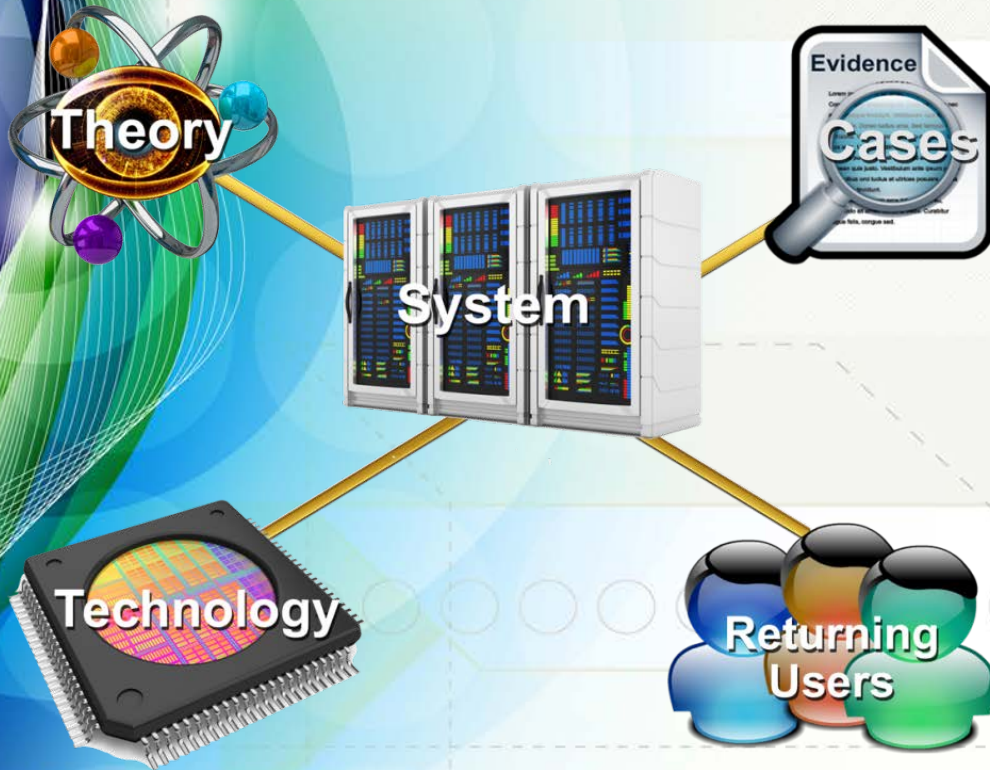

4. Evidence

- Reincarnated users return to the system to retrieve their accounts using memory fragments they can recall (with assistance).
- When an account match is confirmed, the system asks the user to provide specific details about the lifetime which only the account creator could know.
- Correct answers constitute hard scientific evidence for trans-life memory and reincarnation.

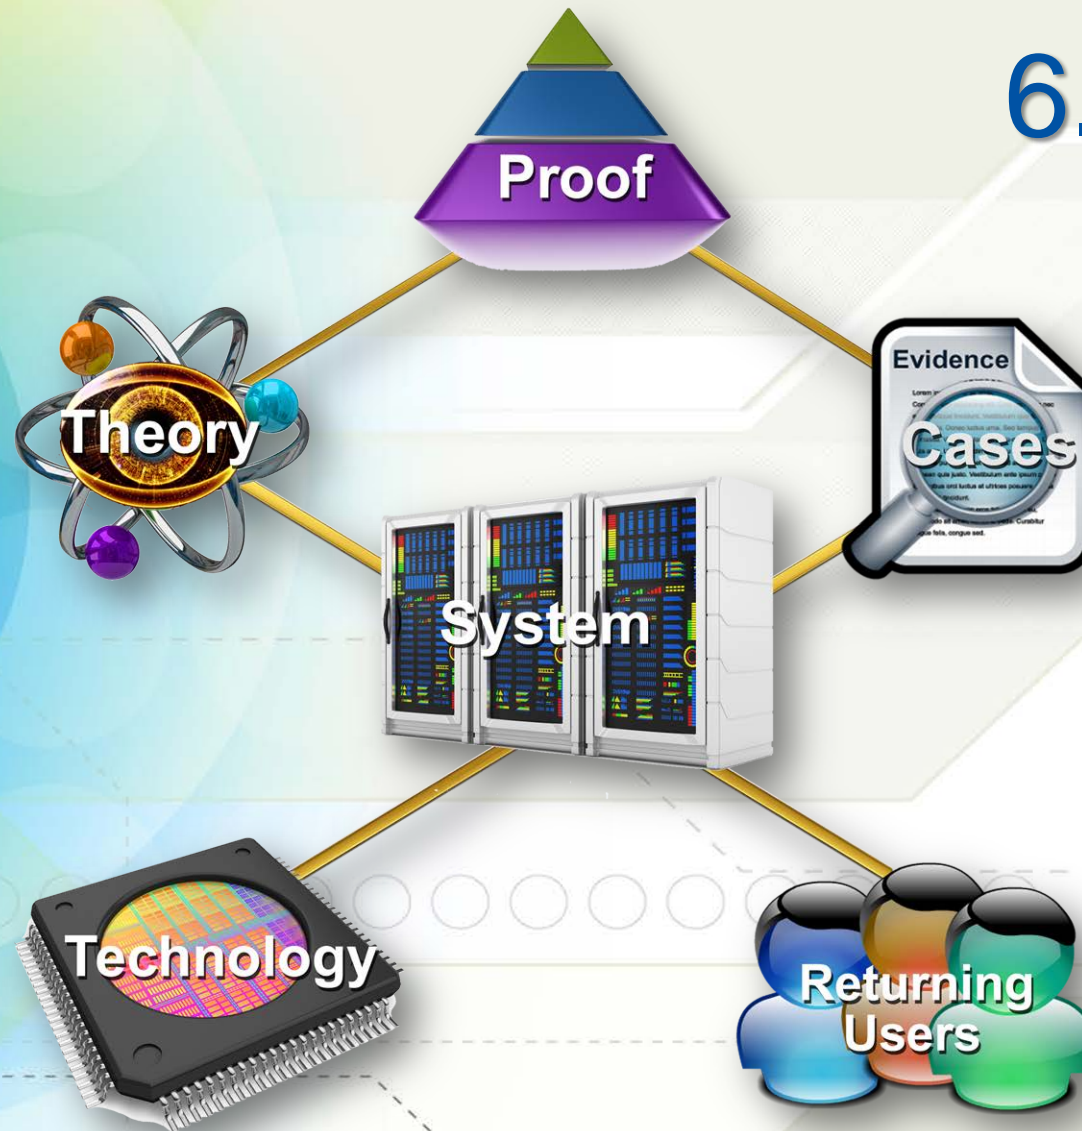

5. Theory

- Trans-life memory theory contains an organized set of principles, formulas and laws governing the structure and behavior of trans-life memory.
- This theory provides a scientific explanation for the evidence of past life recall.

6. Proof

- Evidence + Theory = Scientific Proof

Implementation

Implementation Scenario

- **System terminals located in Hindu temples**
 - Only system terminals can create accounts
- **New users take class at Hindu temple**
 - Initiation ritual and donation
 - How to use system / suggestions for content
 - Create account on system terminal
- **Temple community support**
 - Discussion groups / workshops / study groups
- **Remote access from home or mobile**
 - Granted upon class completion
- **Same process for retrieval**
 - Replace content suggestions with searching tips
 - Easy to remember where to find system – at temples

Volunteers

- **Trained in system use and content selection**
- **Educated in trans-life memory**
- **Set intentions to remember life**
- **Perform practices to deepen intentions**
- **Volunteer to reincarnate on Earth**
- **Serve a noble cause**
 - Advancing Hinduism
 - Leading humanity into greater wisdom

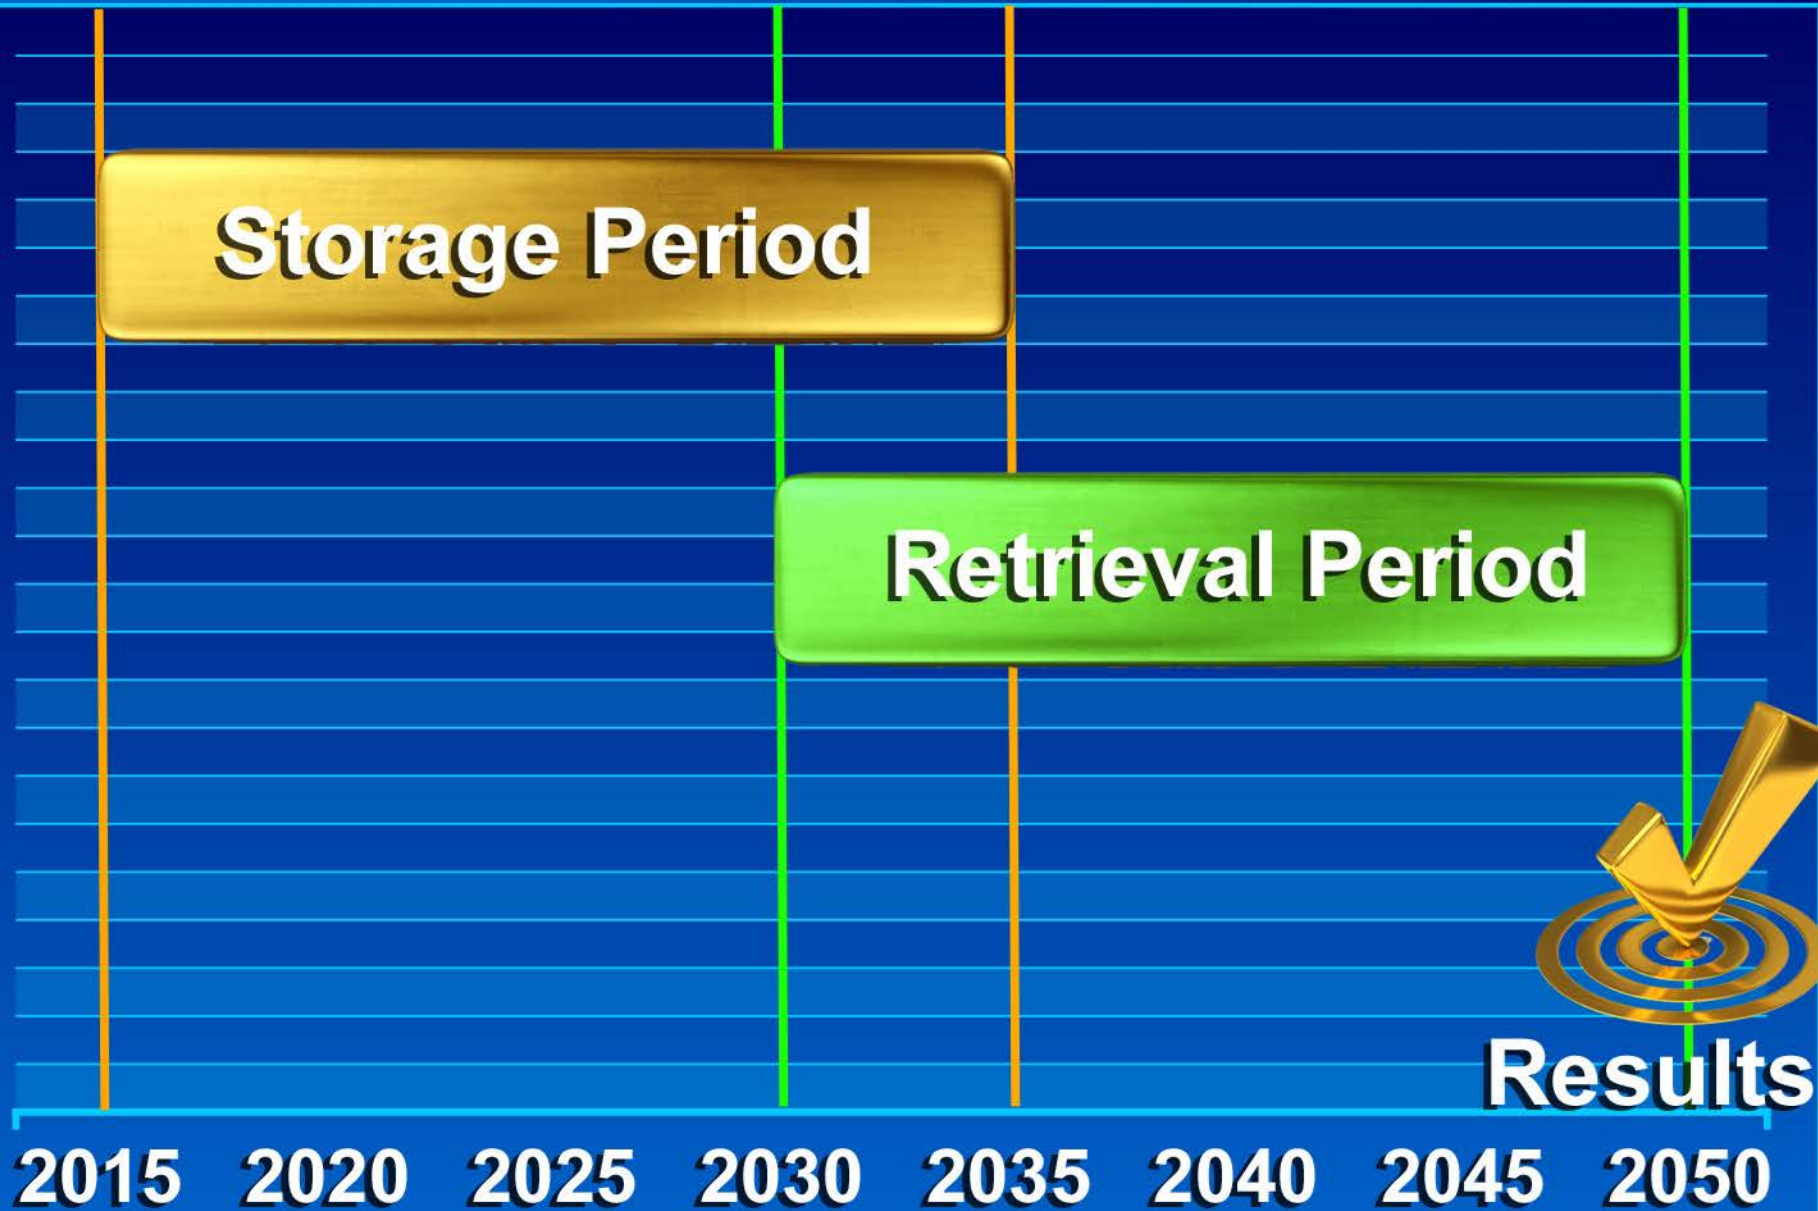

Timetable Assumptions

- Experiment start date 2015
- Minimum age for recalling past life 15
- First case of recall (2015+15) 2030
- Experiment end date 2050
- Last enrollment date (2050-15) 2035

Timetable

Projected Outcomes

Goal:

Over the next 20 years, enroll 20 million elderly Hindu users on the system (whose lives end by 2035)

Outcome by 2050:

Some of these reincarnated users (10-30%) return to the system, find their accounts, and remember details

Results:

2 to 6 million instances of hard scientific evidence

+ Trans-life memory science which explains them

= Overwhelming scientific proof of reincarnation

Projected Outcomes - Detail

Case	Low		High	
	%	#	%	#
Do not remember to go back to system	30%	6 M	20%	4 M
Attempt to find accounts but fail	40%	8 M	30%	6 M
Do not remember correct specific details	20%	4 M	20%	4 M
Remember correct specific details	10%	2 M	30%	6 M

Note: Trans-life psychology is in its formative stages. Results should improve over time.

Experiment Impacts

World

- Global acceptance of reincarnation as a scientific fact
- Explosive demand for spiritual guidance and teachers
- Topples materialistic paradigms in the West
- Reinvigorates spiritual traditions in the East
- Ties India and the Western countries closely together

Future

- Galvanizes support of long range future initiatives
 - Green energy / climate change / environmentalism
 - People realize they will inherit the future
- Raises world awareness of future lives
- Generates global demand for future life education

Experiment Impacts (continued)

India

- Unites millions of Hindus in a common cause
- Demonstrates anew the power of collective action in India
- Energizes participation at local temples

Capital

- Moves consumer focus from acquiring temporary material possessions towards accumulating lasting spiritual capital
- Shifts consumer spending patterns and global capital flows

Death

- Liberates humanity from fear of death
- Contributes to rising demand for greater legal freedom for end of life choices
- Alters end of life care decisions and priorities

Experiment Details

Attribute	Metric	Remarks
Length of experiment	35 years	2015 to 2050
Number of participants	20 million Hindus	
Experiment administration	Swiss laboratory	Objective impartiality
Database size estimate	4 million GB	= 4 petabytes (facebook = 300 PB)

Expertise

Expertise

- **Future Life Institute's principals have been working on trans-life memory systems since 2002**
- **Early system designs had problems with retrieval**
- **Retrieval problems have been solved by the latest advances in computer technology**

Trans-life memory system architect
is the father of a mainframe.
Honeywell DPS 8000 Computer System

Conclusions

Success Factors

- Hindus are historically drawn to higher purposes
 - Serve their faith and advance humanity
- Strength in numbers
 - Leverage India's vast population
- Low cost
 - Affordable to the mainstream
- Viral potential
 - Bold project / media coverage / word of mouth
- Builds community
 - Classes, workshops and study groups at temples
- People will be proud to be associated with the idea
 - Big, bold project of great stature for a noble cause
 - Broad social and history-changing implications

The Mormon Church maintains a library of its members' ancestors.

Summary

- The time is ripe for India to assert herself and lead humanity into a golden age of wisdom.
- The enabling technology has now arrived for Hindus to conclusively demonstrate the scientific truth of their beliefs.
- Leveraging her strength in numbers and power of collective action, India can produce unequivocal scientific proof of reincarnation and change the world forever.

Conclusions

“When you are inspired by some great purpose, some extraordinary project, all your thoughts break their bonds. Your mind transcends limitations, your consciousness expands in every direction, and you find yourself in a new, great and wonderful world. Dormant forces, faculties and talents become alive, and you discover yourself to be a greater person by far than you ever dreamed yourself to be.”

— Patanjali

Proving Reincarnation by 2050 Project

You are invited to:

- ✓ Arrange a presentation to your temple's council of leaders
- ✓ Schedule a conference with the principals
- ✓ Apply for volunteer openings
- ✓ Donate to support the project

Please visit PR2050.org for more information.

Let's start acting like we're right!
